This facility is home to one of our world-class data centers that are central to the Los Angeles digital economy. All three of our facilities are ideal for clients that require top tier performance and optimal interconnection networks. Low-latency, minimal hops and fewer points of failure are top priority at all Wilshire facilities. This is why we offer connectivity to a plethora of carriers including all major Los Angeles network hubs.

609 West 7th Street offers leading space, power and security. This building is strategically located between the One Wilshire Building and the Carrier Center at 600 West 7th Street.
